

## **Executive Compensation Plan for Comment**

At Bluewater Health, we value feedback from our community. That's why we are posting Bluewater Health's draft executive compensation framework for public consultation.

This public comment period is an opportunity for all interested parties to provide input into Bluewater Health's draft framework. The consultation period will last a total of 30 days and all comments must be submitted by February 18, 2018 at 11:59 pm.

Bluewater Health continues to support and encourage a fair and balanced approach to all public sector compensation.

Bluewater Health will continue to work with government understanding that this is a time of accountability, transparency and consistency in compensation for all executives throughout the Broader Public Sector.
